DL301-4PL series Polarized Wall Grazing Recessed Downlight

Description

This lamp achieves uniform distribution of light spots on the wall and even brightness across the entire wall with a clear skyline through the reasonable combination of optical lenses and polarizing films, which precisely allocates the light.

Color temperature stepless adjustment

2700K (warm light) to 5000K (natural light), freely adjustable to meet different ambient lighting needs;

Precise light control, master wall wash

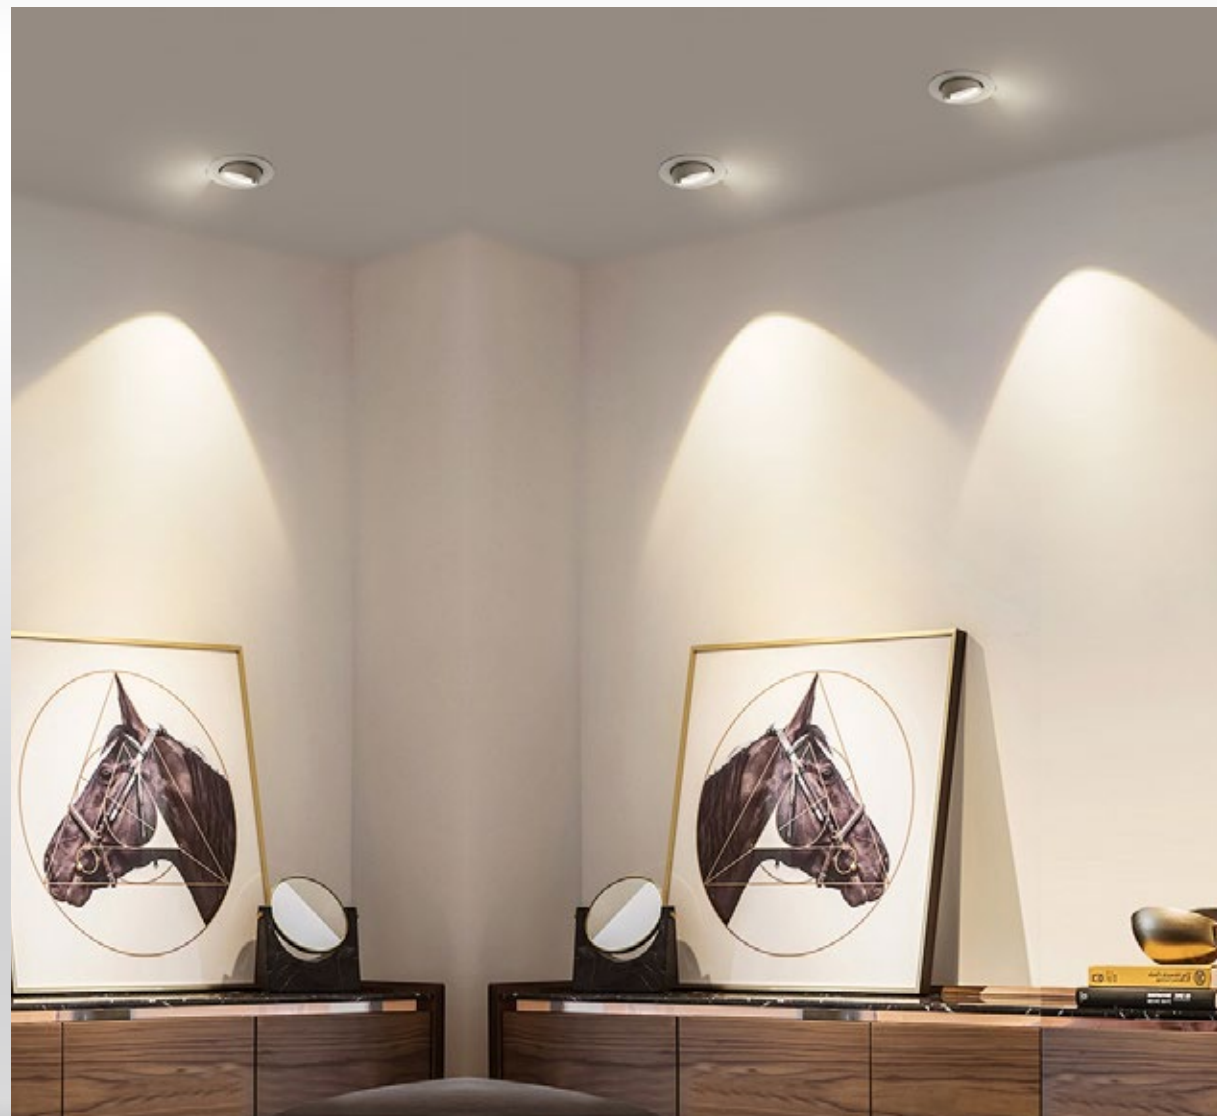

- Adopts exclusive polarized lens technology to say goodbye to cluttered light spots, achieve a uniform light curtain from the top of the wall to the foot of the wall, and light up the sense of luxury in the space.
- Creates a clean, crisp light-dark line at the ceiling junction, boosting depth and style in one step.

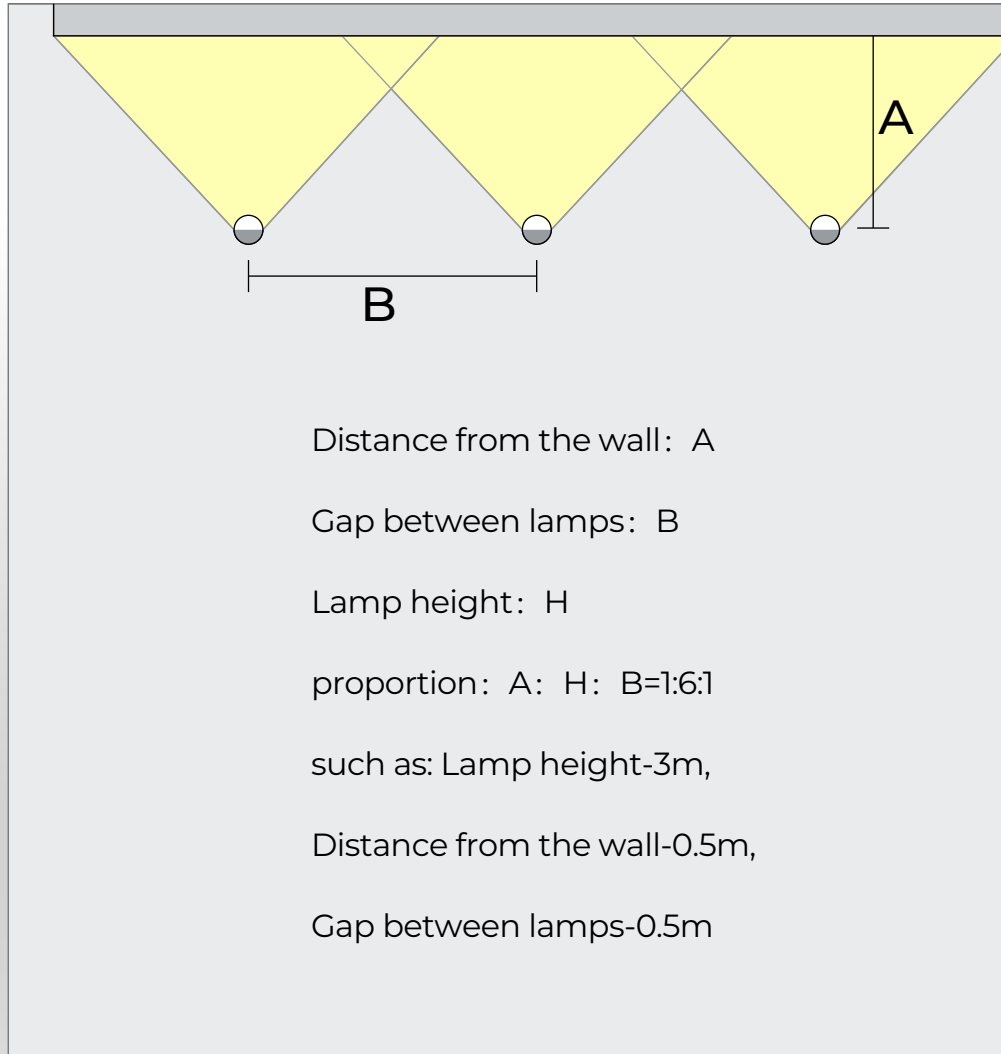

Adjustable beam angle

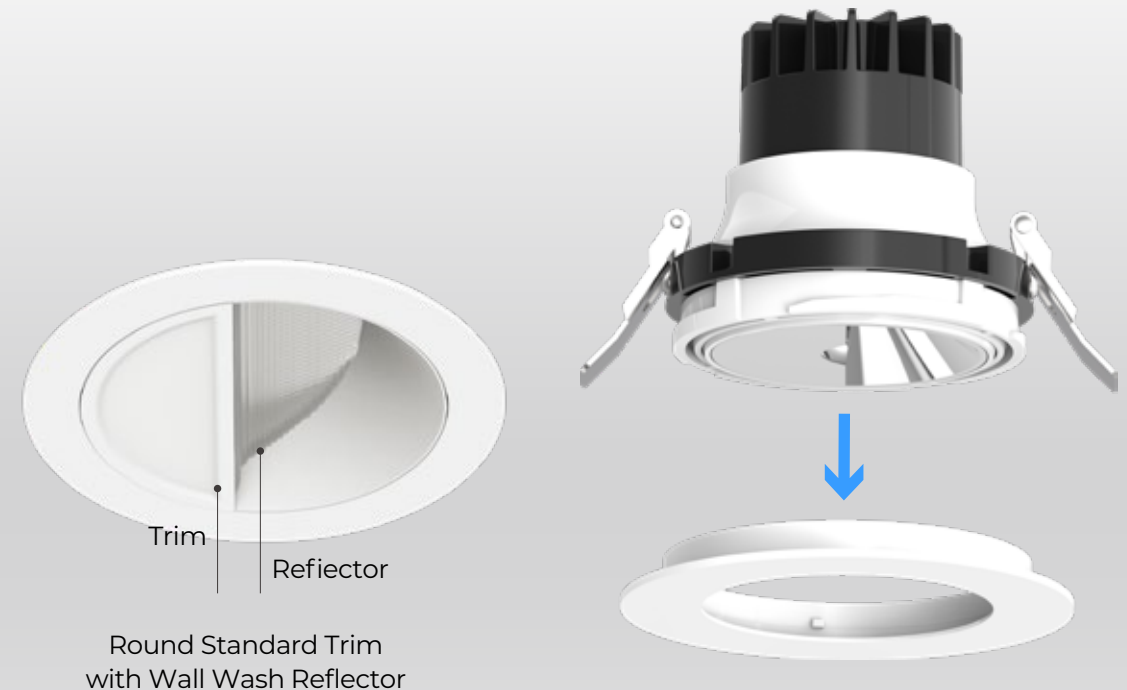

- With a swing adjustment angle of 0° to 15°, users can fine-tune it according to the installation position and the desired wall wash width, adapting to different scene needs and high flexibility.

Luminaire arrangement

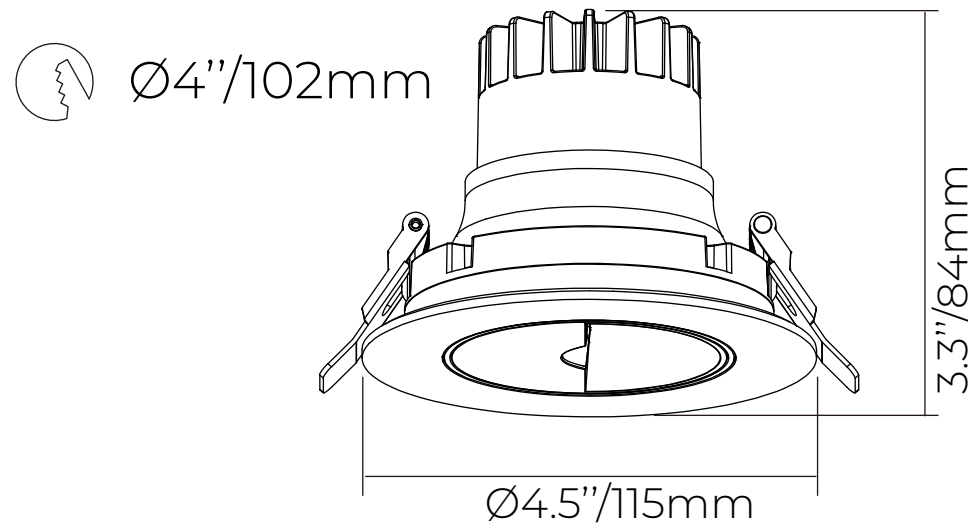

- This "polarized wash wall downlight" is the highlight of a main-light-free design. With precise optics, it solves the uneven wall washing common with traditional downlights, offering a professional lighting solution for high-end spaces.

Parameters

Model	CCT	Luminous flux (lm±10%)	LEDs type	CRI	PF	Power	Voltage	Work Temperature
DL301-4PL-12W-5CCT	2700K	515	Double Color COB1510	Ra>90	>0.9	12W	AC120V, 50/60Hz	-20°C~40°C
	3000K	550						
	3500K	580						
	4000K	600						
	5000K	605
